

# DOUBLETREE HOTEL ONTARIO

## GREEN INITIATIVES

### Recycling

Recycling is available for the following materials and is sorted by an outside company twice a week:  
Glass, Aluminum, Paper, Cardboard, Plastic, Grease, Green (food) Waste  
Fluorescent light bulbs, Metal and Batteries

### Energy & Water Conservation

Our conservation program at Doubletree Ontario, CA is as follows:  
Power/Electricity CFL bulbs in all guest rooms  
Towel/Sheets program information card in guest room  
Lights and HVAC are shut off when rooms are vacant  
Storage areas have time switches  
Water sensor faucets and soap dispensers in public spaces  
Water saving flush valve on all toilets  
Distributor caps on guest showers to use less water  
Electronic room thermostats to regulate temperature  
Hydropoint weather track smart water irrigation  
SCE – Together with Edison we greatly reduce the load of energy used during High Peak Demand in Summer months  
Laundry closed 12pm- 6pm in Summer months

### Waste Minimization

Styrofoam and Polystyrene are used for take-out service  
Using "Paperless Office" techniques for daily office routines  
Foods, beverages and condiments are served in bulk when practical  
Reusable crates and cartons are used by wholesalers and staff  
Reusable cups, plates and napkins used whenever possible

### Responsible Purchasing

Hotel uses recyclable products and products containing recycled material:  
Paper (printing, fax, and copy), packaging and storing  
Laundry and housekeeping chemicals are environmentally friendly  
Dishwashers and washing machines are Energy-Star rated

### Awareness

Team members are aware of hotels environmental policies and practices  
Vendors are required to follow responsible practices for disposal and recycling  
Guests are provided with our Hotel Green initiative goals via in-room literature
