A revolutionary new midscale brand by Hilton.
It’s one thing to separate ourselves from the competition.

It is quite another to challenge the status quo and pursue radical reinvention...
Tru by Hilton is a revolutionary new midscale brand changing travel as we know it today.

By creating an original, back-to-basics experience with soul—grounded in value and anchored in the DNA of Hilton—we will win the hearts and minds of guests who are looking for social engagement, unexpected certainty and vibrant simplicity.
Tru by Hilton was designed to disrupt the midscale category.

It’s simplified, spirited, and grounded in value. These are the pillars of our brand.

**Simplified**
We stand up for the love of simplicity. Intuitive and effortless. Nimble and efficient. All beautifully balanced.

**Spirited**
We embrace the human spirit. We cultivate connections with a vibe that is playful, energetic, and engaging. A sense of place unlike anything in our space.

**Grounded in Value**
We champion the value-conscious traveler. We understand what matters most—better basics served up in a fresh, consistent and surprisingly affordable way. Minimal yet meaningful.

---

Who will Tru by Hilton appeal to?

Tru by Hilton is designed to appeal to a broad range of travelers who span generations but think alike; they share a zest for Life Mindset.

- They have a youthful energy and an open-minded optimism.
- They have a passion for pleasing others.
- They want a unique, lively environment where they can choose to recharge through their connections with others or simply watch the world go by.
- They value the best technology.
- They live for freedom of choice.
- And, they’re looking for the basics served up in a fresh, consistent and surprisingly affordable way.

No brand is meeting their needs, in their price point, today.
We’ve Revolutionized Everything About The Space
Our Design Intent

Just like our brand pillars, our product has been designed to be spirited—bold and imaginative—yet simplified and grounded in value. We call it **minimal yet meaningful**. This sets our product apart from the hum drum reality of the category, connecting with guests in never-before-seen ways.

**Simplified and spirited will walk hand in hand.** We have used clever graphics and unexpected winks to spark a conversation with our guests. We have used vibrant colors and patterns that are playful. We have selected FF&E that is highly functional, simply stylish, comfortable, and unconventional in a head-turning sort of way.

And...we have ensured operational efficiency and simplicity in everything we do. We have used neutral palettes in areas that need a shelf-life, and pops of colors where things can be cost-effectively changed from time to time.

We have limited built-in case goods to make it easy to maintain the overall condition of the hotel. We have used luxury vinyl tile that is simple to clean and easy to replace, built for sound absorption and longevity. We have made it easy for guests to power up and connect. And...we have ensured the right light in the right places with the right solutions.

Our design intent can be summed up in three words:

**Fun, fresh and functional!**
This is a game changing public space—a 2,857 square foot lobby that is so much more. Divided into four zones for eat, work, play, or lounge; it’s designed for activation—to foster connections with fellow travelers, chill and watch the world go by, or quietly work alone. A central command center with built-in marketplace sits in the heart of the space.

A Place To Go “To” Not Just “Through”

“The Hive” – Our Big Lobby Statement
Unlike any other midscale hotel lobby, we have re-invented our public space to drive easy-going engagements. This starts with a glass storefront system both in the front and back of the building, allowing lots of natural light into the lobby space.

“The Hive” has four zones that serve as signature brand features – a zone to work, play, lounge and eat. They are distinct yet fluid with inventive and flexible seating to support the whole. The space is designed for social activation and revenue generation...with a seamless flow between social/play, semi-private and work/private spaces so guests can be alone, socially alone, or engaged with others.

Signature “Work” Zone
Private spaces and built-in alcoves, including work booths with sound absorption, provide a dedicated place with ample surfaces to focus on getting work done. We understand guests travel with their tablets, laptops and smart phones, so we provide a place for self-service printing.

Signature “Play” Zone
This is the most spirited zone with games designed to play with others. Owners can choose from a set of game options that include table games, which co-exist in a flexible space with a large mobile TV and dry-erase unit – all surrounded by upholstered, easy-to-clean and maintain tiered seating.

Signature “Lounge” Zone
Flexible seating arrangements including comfortable lounge chairs, ottomans, couches with high backs, side tables, and unique comfortable “hammock style seats” are located by full glass front walls to enjoy the outdoors indoors. This is a perfect place for reading, listening to music or connecting with new and old friends while watching the world go by.

Signature “Eat/Drink” Zone
Flexible seating allows guests to enjoy our complimentary breakfast, coffee or tea, or purchase treats, drinks, and light meals from the market. Bar chairs at the community table provide alternative dining seating.

The Command Center and Market
A central “command center” re-invents the traditional front desk and creates a hallmark for the Brand and a focal point for guests. Here guests can check-in / check-out, buy drinks and snacks at our 24/7 market built into the circular front desk – all in one place.

F&B
We’ve got all of our guest’s F&B bases covered. The prototype has a dedicated breakfast counter with plenty of storage and a closure system to close off after breakfast hours. Our complimentary “Top It” breakfast includes a toppings bar with 30 sweet, savory and healthy items so guests can be their own tastemakers.

And for those anytime cravings, a 24/7 market allows guests to purchase traditional and unique local snacks, light meals, drinks, and single-serve wine and beer.

Technology Integration
This is important to guests so it’s important to us. Baked into our brand are digital check-in and straight-to-room; convenient power outlets throughout the hotel to charge devices; super-fast and complimentary wireless internet access; and fixed and portable screens for entertainment and information.

LVT Flooring And Integrated Carpet Tiles
The predominant flooring material in the lobby space is Luxury Vinyl Tile (LVT) with a sound absorption backing. Carpet tiles are seamlessly integrated with LVT planks in quieter lobby zones. LVT flooring combines pattern and style with a strong “clean” message and can accommodate various activity levels. While more expensive upfront than carpet, LVT has a longer shelf-life and is easier to maintain over time.

Fitness Center
Our fitness center is located just off the lobby and adjacent to the hydration water and ice station. The fitness center facilitates guests’ changing workout needs. With ample space for guest workout customization, our fitness center has both traditional and non-traditional equipment and accessories that leverage wellness trends and features cardio, strength, and flexibility.

Thoughtfully designed to maximize the use of space and operational efficiency, the guest rooms feature an all-white bedding program on a platform bed, expansive window for plenty of natural light, clear visual access to lighting and power, a multi-functional chair, and inventive features like sound absorption solutions that become style elements in the space. The overall number of case goods are purposefully minimal with cleverly designed, highly usable surfaces. We’ve packed a lot into these 231sf and 280sf guest rooms – all of the right stuff, in all of the right ways!

The spacious bathrooms have been designed with a laser-focus on those things that matter most to guests – all with operational ease in mind. Bathrooms are 100% shower – a really great shower – with lots of light, ample storage space, functional amenities and pops of whimsy.

Minimal Yet Meaningful Guest Rooms

Signature “Landing Zone”
This is a place to pause, unload and organize stuff. It’s designed with mudroom functionality, hanging storage in a non-enclosed closet and a luggage bench. This area makes a design statement through an accentuated floor, wall and ceiling transition and down lighting, signifying arrival. The “artwork-like” wall hooks are a common sense amenity with a brand twist and pop of color – a place to hang your bag and jacket. The wall notch at the “landing zone” and closet allows for greater visual entry into the guest room.

Signature “Bed Zone”
A platform-style bed (with no box spring) serves as a hero element in the room – with an upholstered headboard, durable and cleanable surface, and an all-white triple-sheeted bed program. All of our guest rooms have either single king or double queen beds. Guests will have direct access to power and lighting from the bed.

Ample Storage
This compact room has been smartly designed for ample storage space. In addition to the luggage bench and hanging storage space, the PTAC bench turns unused space into usable space for luggage or extra seating, the elongated TV ledge and shelf below provide extra storage and charging station functionality, and the space under the platform-style bed is another clever way to store a suitcase.

Lighting Strategy
Versatile task and ambient lighting, and ample natural lighting make the room feel larger than it is. Natural light is maximized in this smaller space with double windows, visually opening up the compact room. A printed solar sheer and blackout shade allow guests to customize the amount of privacy and natural light entering the space.

Comfortable Lounge And Task Chair
We are bucking the tradition of in-room desks. Technology has changed the way guests work and play – so instead of a desk we have chosen a versatile and comfortable, lounge and task chair, with an integrated work surface and direct adjacency to the bedside ledge, clock, lighting, and power. If guests need more work surface, the work zone in The Hive has them covered.

Focused In-room Amenities And Services
We say “yes” to an iron & ironing board, a mini refrigerator, a simple alarm clock, and a slim-line phone. Add a huge 55” TV with a 150-channel line-up from DIRECTV, and super-fast complimentary high-speed internet access to download and watch streaming content on guests’ devices. Plentiful outlets are located in all the right places to charge devices. We say “no” to in-room coffee and tea, a microwave and tons of printed in-room collateral. More of what guests want and none of the items they don’t.

Brand Graphics
Witty graphics and messages create an impression that expresses our brand personality on the ironing board, power identifiers and do not disturb sign.

LVT Flooring
The guestroom (exclusive of the bathroom) takes advantage of the many benefits of LVT flooring – this material combines sound absorption functionality, pattern and style with a strong “clean” message for guests, and is durable and operationally friendly for the hotel.
Spacious Bathrooms

Ample Storage
An extra-long vanity countertop with an elongated shelf above and a shelf below, maximize storage space for towels and personal items. Towel bars and hooks round out the hanging storage space.

A Really Great Shower
This is a 100% shower brand. Spacious, well lit, glass swing door showers are complemented with a foot shelf, an extra storage ledge for toiletry items, and bulk dispensers. Panelized, groutless surrounds are designed for ease of installation, operational simplicity and a super-clean guest impression.

Clever Brand Graphics
The use of clever brand messaging on the hairdryer bag and the signature bathroom wall pattern bring a playful sophistication to the space.

Porcelain Tile Floor
Large 12” by 24” porcelain tiles with narrow grout lines increase the perception of guest cleanliness and are designed to stand the test of water durability.

Lighting
Recessed lighting throughout the bathroom, including the shower space, provides an abundance of light right where guests need it.

Amenities
A large interally illuminated mirror, hairdryer, bulk amenities, high-quality towels and an integrated night light round out the bathroom amenity package.
Our Exterior
A Distinctly Different Design
A Distinctly Different Design
Outdoor Patio (Optional)
Bringing the Spirited Personality of the Brand Outside

Keeping true to the simplified and spirited brand pillars, we created some visual interest on the exterior of the building. Using a sleek, rectangular building as our canvas, we developed signature architectural elements to bring the spirited personality of the brand to life on the outside.

Grounded in value with a 95% EIFS building skin and a primarily neutral exterior color palette, the spirited elements on the exterior include:

1. An angular pylon showcasing our brand logo and marking the hotel’s main entrance

2. A 10 ft overhang acting as a streamlined porte cochere

3. Architectural articulation at the double queen guestrooms with accents of colors/shapes – materials used in these recessed areas are easy to install and maintain

4. Glass storefront windows bring natural light into “The Hive” during the day and shows the buzz of activity at night upon guests' arrival

5. Founded on a sustainable, low-maintenance approach to landscape design this modern design uses large bands of regional rock, trees and a simple understory planting palette to create a unique and modern look that extends the building geometries into the surrounding landscape
Exterior Materials and Finishes

- Dryvit Sandblast
- Dryvit TerraNeo
- Storefront Glazing Frame
- Trespa Meteon Panel
