Canopy by Hilton is a sophisticated, branded boutique hotel designed to invite the city in, ensure guests have a positive stay, and tells the story of the neighborhood.

**Champion of the Neighborhood**

From the design of the hotel to the art and musicians you’ll find here, it’s all part of an authentic local experience with a boutique-hotel feel. We help tell the story of the neighborhood we are in by infusing its essence into the design of each Canopy.

**Just-Right Rooms**

In a Just-Right Room, there’s a place for everything, and everything is just where it belongs. The clean lines and thoughtful use of space make you feel at home while the delightful details emerge: stylish furniture that feels residential, our signature Canopy sleep experience, a bathroom that invites, and local touches you won’t find anywhere else.

**Food + Drink**

Canopy’s F+D program is always neighborhood-inspired, intending to make guests feel like locals and locals feel at home. How this comes to life varies at each property, but the sum of each hotel’s F+D offerings position the programs as lampposts of their neighborhoods. We achieve this through the right mix of programming and activations that bring life to the spaces.

**Conscious Travel**

Canopy by Hilton prioritizes a holistic approach to how we empower our guests to travel. Our guests are focused on culture, wellness, and sustainability and want stays tailored to those values.
