In partnership with the Hilton Sandestin Beach Golf Resort & Spa, Five-Star AudioVisual provides the highest quality audiovisual services available. Everyone knows the most important part of any wedding day is the ceremony itself. With breathtaking emerald green waters in the distance and white sugar sand beneath your toes, having your wedding on the beach can be a beautiful and memorable event by planning ahead and ensuring you have the proper equipment.

The open-air atmosphere of a beach wedding can make it extremely difficult for your family and friends to hear all the special moments of your ceremony such as your vows, prayers and readings. Those same gulf breezes that refresh your guests can blow music and words in the wrong direction, leaving your guests with nothing to hear but the roar of the waves. However, this challenge can be easily overcome by allowing Five-Star AudioVisual to provide a professional sound system so that every moment of your special day is witnessed and heard by all.

**Wedding Sound System Package 1:** *(for up to 75 guests)*

- 1 Powered speaker
- 1 Ultimate speaker stand
- 1 Wireless lavaliere microphone for Officiant
- 1 Audio mixer
- Audio technician to monitor audio levels throughout ceremony

**Price:** $300.00

**Wedding Sound System Package 2:** *(for up to 75 guests)*
